COMPREHENSIVE MANAGEMENT REPORT (Continued)

f) Summary of assurance procedures;

We planned and performed our work to obtain all evidence, information and explanations considered necessary in relation to the above scope. These procedures included:

- Enquiries of management to gain an understanding of AMR's Gold Supply Chain Policy and Risk Management protocols. Questions about the Refinery's Compliance System were asked and required disclosures were obtained,
- Enquiries of relevant, responsible staff for the preparation of the Report and the required disclosures were obtained,
- Refiner's production site visited. The complete Gold Supply Chain process observed, the required disclosures obtained and necessary audits and controls performed regarding the functionality of the system. it was observed that the refinery is producing according to domestic and international standards and certificates,
- Procedures, documents and information related to gold suppliers, buyers and other related parties were selected in order to assess if the Refinery has an effective compliance system. As a result of the assessments, it was seen that the Refinery has established an effective compliance system that is in accordance with **Emirates Bullion Market Committee (EBC) Rules for Risk Based Due Diligence in the Gold Supply Chain (EBC Rules for RBDG / Version 1 / 2021)**,
- It was observed that the Refinery has established and put into force an effective management system regarding with the Refinery's Gold Supply Chain, which is in harmony with domestic and international standards. It was also observed that the Refinery has adopted appropriate internal control and intercommunication systems. The Refinery has formed a set of procedures and applications in order to identify risks in the supply chain. It was observed that the Refinery formed an appropriate "Know Your Client" (KYC) policy and "Risk Management Plan" within the context of KYC and is maintaining the system's operation.
- Above procedures have been evaluated in accordance to the interviews with the General Manager, Compliance, Refinery, Production, Import, Export, Accounting and Internal Audit Managers and key personnel.

g) Any significant or inherent limitations or areas not covered;

Observations as a result of the audit and controls over documents and information of the Refinery were compared with the information within the Refinery's Compliance Report and it was observed that the report and its audit observations are consistent with each other.

h) Assurance observations, findings and recommendations for improvement;

As a result of our assurance observations, it was observed that, as recommended in previous years, progress has been made in "Improving the training to increase awareness of all personnel related to the Gold Supply Chain Policy", and we have been informed about that the internal trainings will be continuing in following years. In this sense, it has been noticed that regular training sessions (basic and refreshing trainings) have been held for all staff involved with or holding responsibilities related to the supply chain, as well as the management team. It has also been noticed that The Company Policy has been communicated to all employees related to the gold/precious metals/silver (multi metal) refining process.

i) Description of any low-risk deviations from conformance identified by the auditor;

There were no low - risk deviations identified during our assurance audit works.

j) Specific observations with respect to the Refiner's Corrective Action Plan and implementation progress;

- Compliance officer organized several meetings within 2021 in order to increase the awareness of the personnel at all levels - with respect to the Gold Supply Chain Policy of the Refinery in accordance with requirements of **EBC Rules for RBDG** and **OECD Due Diligence Guidance for Responsible Supply Chains of Minerals from Conflict-Affected and High-Risk Areas (OECD Guidance)**.

Audit Observations

Ahlatcı Metal Rafineri A.Ş. has six suppliers; five are located in Turkey and one in United Arab Emirates. Total volume of the gold purchased from abroad is 0,10 % total purchases and there is only one transaction.

There are no suppliers evaluated as high risk by the company management.

Work Done:

- We audited 140 transactions out of 494 transactions within the period 1 January 2021 31 December 2021 which was subject to audit;

We audited 28,34 % of all transactions, which amounted to 85,16 % of transactions value within the period subject to audit;

- We audited and collected all the 6 customers' "Know Your Client" (KYC) files and enhanced due diligence studies.
- We audited the geographical origin of the gold transactions and if they are Mined or Recyclable Gold;

Total volume of Mined and Recycled Gold in relation to the total number of transactions during the period subject to audit is 103.208,71 kg. 89,98 % of the transaction volume is Recyclable Gold and remaining 10,02 % is Mined Gold. Furthermore, 99,90 % of the total volume is purchased from Turkey and remaining 0,10 % is from abroad (Please see "Country of Origin Annex" enclosed to the end of the report).

- There are not any audit findings about cash transactions which exceed the government thresholds of the Accredited Members (which are investigated by Compliance Officers) place of domicile.

There are not any audit findings about unrelated third-party payments (i.e. cash, bank transfers and metal accounts held with bullion banks) and physical gold and/or precious metal deliveries in unusual circumstances that are not consistent with local and/or international market practices.

Conclusion:

The compliance controls that were tested, were operating with sufficient effectiveness for us to obtain reasonable assurance that the related level of compliance was achieved in the period 1 January 2021 to 31 December 2021.
